

P3 EXOTICS PRODUCT DETAILS

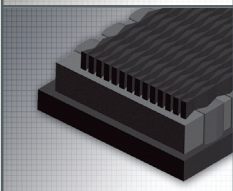

P3 EXOTICS

P3 Exotics deliver the ultimate feel and dead-on accuracy P3 is known for in an exotic package. The Golden Oak and Leopard Curly P3 Exotics are pure beauty on the outside and killer on the inside.

Key benefits:

- Unprecedented construction imparts an astonishingly solid feel.
- Phenolic reinforcements in the joint and butt increase longevity and enhance performance.
- Uni-Loc® Leather Luxe™ Wrap options provide comfort and increased cue protection.
- Uni-Loc® joint and weight system technologies are featured in each P3 Exotic.
- High-performance 314², Z² and FAT shaft options are available.

GOLDEN OAK
On the outside, Curly Maple embellished with a beautiful Golden Oak stain conceals revolutionary Predator technology. Inside, a solid 30-piece core and reinforced Phenolic joint provide a solid, durable feel.

LEOPARD CURLY
Curly Maple with exotic Leopard wood striping form a distinct, yet unassuming, exterior. Underneath, an innovative weight cartridge system delivers fine-tuned victory.

Designed to reduce negative vibrations, the 30-piece P3 Exotic construction features three layers of wood; Maple in the outer and inner layers, and Ash at its center. The higher density of the Ash wood layer, merged with the 30 pie pieces, delivers a perfectly pure feel every time.

Uni-Loc® Leather Luxe™ With its softer-than-leather feel, this wrap offers three layers of protection and comfort in one high-performance grip.

- Polyurethane – outer layer: lets sweat and moisture pass through
- Cushion – middle layer: absorbs and releases moisture
- Sealer – lower layer: blocks moisture to protect cue

Uni-Loc® Weight Cartridge Kit. This one-of-a-kind tuning system provides up to 30 possible weight combinations for unmatched precision.

- Eight weights: 0.1, 0.2, 0.3, 0.4, 0.5, 0.7, 1, 2 oz.
- Detachable handle: for at-home or on-the-go tuning.

Kit sold separately, MSRP \$69
